WORK AND TRAVEL-USA

I am Shareen Stewart a 3rd year student at Colbourne College. Colbourne provides the opportunity to study fulltime in Jamaica or the UK and work in the United States. I look forward to completing my UK Honours Degree. I am undecided at this point if I will complete the final year for the degree in Jamaica, or on campus at the Articulating University in the UK, but I'm sure happy that Colbourne has alternatives for my academic progression so I will be keeping my options wide open.

Colbourne College provides practical business skills alongside great vocational career choices. The benefits for students are exceptional – excellent lecturers with doctorate and masters' degrees; full access to personal laptops; physical and online library access; access to lecturers' notes for classes; globally recognized and accredited UK degrees and diplomas; affordable tuition with flexible payment terms; and of course what I have benefitted from for three straight summers - paid work experiences in the United States. I am a satisfied and proud Colbournite and I definitely recommend Colbourne College as the first choice for your Degree or Diploma.

What is an MBA Degree?

According to About.com "The MBA (Master of Business Administration) is a postgraduate degree that is awarded to students who have mastered the study of business. The MBA degree is thought to be one of the most prestigious and sought after degrees in the world.

Students of MBA programs study the theory and application of business and management principles. This type of study equips students with knowledge that can be applied to a variety of real world business situations."

Why Get an MBA Degree?

According to About.com, "The main reason to attend school is to increase your salary potential and advance your career. In most cases, an MBA degree is required for executive and senior management positions. There are some companies who will not even consider applicants unless they have an MBA degree".

What Can You Do With an MBA Degree?

According to About.com "Because this type of education is relevant to all industries and sectors, it will be valuable regardless of the career that is chosen after graduation. People who hold an MBA degree will find that there are many different types of employment opportunities that are available to them."
