Here is how we can help you to qualify for a scholarship, earn a diploma and degree, and work in the United States as a paid intern, trainee or for summer work.

US and UK University degrees are expensive but are highly recognized worldwide. It is a fact that graduates of US & UK Colleges have an edge as they find employment faster and are better paid in the workplace. A US or UK degree can cost as much as US\$18,000 per semester. Student Loans can assist, but after college, students find that these loans take years to be repaid, shackling them with debt and limiting their ability to afford the things they need today to improve their lifestyles and personal wellbeings. USAV will cut the cost of college attendance up to 90% with the costs of college tuition, fees, textbooks, food and accommodation factored.

- USAV will help you to study in the US/UK with a University of your choosing at less than 90% of the actual cost by (1) providing a Tuition Scholarship that allows you to study the first 24 months of the degree online from your own home country or in Jamaica paying \$0 Tuition and then (2) transferring you to study on-campus in the US or the UK for the final 12-15 months for the Bachelor's Degree. If you prefer to study the entire degree online without on-campus residency or from outside of the US this is allowed.
- USAV provides paid work experiences and internships to help you to supplement the cost of your education. You may apply separately to work in the US for 4 − 6 months after completing the first 24 months of the degree. This will enable you to save \$5000 \$8000 to put towards your final year tuition and fees.
- With USAV you earn in the first 24 months of the degree, the globally accepted Pearson BTEC Diploma from Pearson-Pearson College, London and Pearson Edexcel, one of England's five main examination boards.
- USAV designs orientations and workshops that allow you to study-travel in the US during the first 24 months.
 Students, Partner University Representatives, Faculty and USAV Admission Staff attend the Miami workshop in January/April OR in New York in July/October to collaborate on common issues in study-work-travel.
- USAV helps students who are not qualified to enter college now to matriculate through preparation for the US SAT, US High School Diploma, or the UK GCSE Programs.

How much do I save when I apply for USAV Tuition Scholarship?

To see why it is such a great idea to apply for USAV Tuition Scholarship please compare the experiences of two graduates of Northampton, Anika and Todd. Anika applied directly to Northampton for the Bachelor's degree and completed successfully in 36 months.
